

B-Tech offer a range of Cable Management solutions to hide the ever present problem of trailing AV cables. The BT7070 Cable Manager is an aesthetically pleasing aluminium extrusion and is a stylish alternative to plastic conduit/trunking. In addition to the cable manager itself, B-Tech offer 90° corner connectors and a range of shelves to integrate with the cable manager itself. The shelving solutions provide a stylish way to support AV equipment under a wall mounted screen.

## BT7070
